Glob cu Sistemul Solar – O mică bucată din univers

Offered by Darius Ungurean

50 lei

Pickup/Delivery Options:

- Meet up at the office
- Pickup from seller's home

[Buy Now](#)

Payments via stripe

Întotdeauna am fost fascinat de spațiu. Într-o călătorie (nu mai știu exact unde, poate într-un aeroport în care așteptam o escală lungă), am dat peste acest glob de cristal cu Sistemul Solar și pur și simplu nu am putut să-l las acolo. Mi-a plăcut ideea de a avea întregul nostru sistem solar într-o formă atât de mică și perfectă.

More than intended

Make users do more and/or share more than they intended

For example: end up buying a service they did not intend to (seat selection) or end up subscribing when they thought they were making a one-off purchase or "trying for free", or "consenting" to more data sharing than they wanted.

Free action

Empower users to understand the consequences of their choices (especially in terms of spending more or sharing more personal data)

For example: clearly explaining with whom the personal data will be shared, whether an action is optional or required, whether a given service is added as a suggestion

But above all, we're going to provide the solution,

- 
- Avec ou sans TikTok, le Social Commerce s'impose.
 - La communauté, pilier central de la circularité.
 - L'insatiable quête de la convenience.
 - L'optimisation des points de contact : une priorité.
